ANOTHER COOLIDGE STORY.
In the current issue of "The Popular" magazine, Dane Coolidge, the well-known writer who used to have the habit of spending his winters here, has another story. This one is entitled "Peccos Dalhart, Rustler," and is a complete novel in itself. The scene is laid in the vicinity of Four Peaks and while there are a few things in it taken from life, the greater part of the story and the incidents thereof are pure fiction. It is a typical cowboy story and has many features that characterize it as a Coolidge story.

SOLDIERS' DEPARTURE

C. Company Left For Phoenix Yesterday

OFF FOR CAMP TODAY

Considering the Time of the
Year the Company Had a
Good Attendance—The
Company Will Be Away
About Three Weeks.

Company C, N. G. A., Capt. W. H. Woolf commanding, took train for Phoenix yesterday morning and this morning with the other companies of the territory will leave on a special train for Atascadero, Northern California. The men will probably be away about three weeks.

Tempe's company this year consisted of one officer and twenty-three men. Lieut. Harris has been transferred to the staff and Lieutenant Jones is away from town. That left Captain Woolf as the only officer. The non-commissioned officers and privates that left yesterday morning were the following named: Fred Foga, Chas. A. Haigler, Frank L. Parry, Sam Gregg, Juan Ochoa, A. C. Mazon, W. U. Gonzales, O. Cosner, A. Woolf, A. J. Miller, C. L. Cummings, John Lyons, Chas. W. Swiggett, Otto V. Gregg, Keith Horrell, C. Urbano, J. Braun, J. A. Crows, Bert Cline, C. L. Miller, W. W. Bohrig, and T. F. Bolger. Mr. Bolger along as the company cook. Joe Griffin of Mesa also goes with Company C as regimental butcher. It is probable that others will be added to Company C in Phoenix.

Most of the members of the company have been making their home at the armory for the past couple of days getting everything in readiness for the encampment. Consequently, yesterday morning by train time, every thing was in shape for transportation. The company took the Mesa train to Phoenix, joining the Mesa company and spent yesterday at the capital.

SKIN DISEASES HUMORS IN THE BLOOD

Nature has made ample provision in the moisture and sunshine of the air for the outward protection and healthy condition of the skin. But the more important work of nourishing the cuticle has been left to an inward source—the blood. It is from the circulation that the pores and glands receive their stimulus, and the fibrous tissues are all preserved in a healthful state because of constant nutriment supplied by the blood. It is only when the circulation becomes infected with humors or acids that we are troubled with skin affections. The humors producing these troubles are carried through the circulation direct to the skin, and their irritating or inflammatory effect remains until the blood is cleansed. S.S.S. cures Skin Diseases, because it is the greatest of all blood purifiers. It goes into the circulation and

PECULIARITIES OF THE PARISIAN DUEL.

An English journalist has been making curious inquiry into the favorite dueling ground of Paris, on an island in the Seine, at the base of a great wheel constructed for the entertainment of visitors at the exposition. In these days, when encounters occur there is a charge of approximately \$10 to the participants, which is supposed to pay the workmen who prepare the ground. In reality every duel is an advertisement to the purveyors of amusement.

It is not sufficiently understood why so many of these combats are so attenuated. They are usually brought to an end by a mere scratch on the wrist. This is because of a system known as the "Methode Bandy," from its inventor. Its chief merit is that it places an inferior performer on an equality with the expert. The method can be learned in half an hour. The principle is to hold the sword out straight and keep it there. Then let the antagonist do his worst. He cannot advance far without spitting himself. This sounds so simple as to be absurd; yet even fatal accidents do occur, leading in rare cases to brief punishment by imprisonment. As might be expected, "cherchez la femme" is the only advice needed to find the cause of most of these encounters, particularly between officers. But many of them occur between politicians and journalists. Every Parisian paper is said to have on its staff an expert with the sword, a "fighting editor," ready to maintain the allegations or suggestions of his chief. The acknowledged authority upon the etiquette of duels, M. Rougier-Dorcieres, has presided over more of these affairs than any man living.

Some of the meetings are thoroughly public, with a cinematograph, an attendant crowd and a roped ring. Others are rigidly private. It is interesting and perhaps encouraging to the admirers of the "manly art" to learn that boxing is becoming more popular in Paris. The English method of settling disputes may in time take the place of steel, as it now has regular schools of instruction in the French capital. Possibly out of this will come the development of cricket and baseball, for it is often said that the French people have no athletic sports distinctly their own. — Washington Post.

TALKING IT OVER.

The recent political excitement had such a firm hold on the residents of this place that even yet they are discussing just how it happened. Once and a while there are men who insist on talking politics but they are few in numbers.

AUTO WENT BAD.

Earl Clements and mother and J. J. Frazer started for Fish Creek yesterday morning, expecting to return in the evening. They reached Mormon Flat when the machine refused to budge, and it is reported that all the persuasive ability of Mr. Frazer availed it not. As a last resort another car was sent out from this place to take the passengers to their destination.

SENTENCED FOR LIFE

Paramount Issue Culminated in Marriage

CUPID BUSY REGARDLESS

Three Well Known Couples

Join Hands for Better or for Worse—Mr. and Mrs. Davis Off for Los Angeles—Others to Prescott.

Regardless of the recent political excitement no less than six Mesa residents have not been deterred by the entreaties of cupid and have willingly taken upon themselves the responsibilities of the nuptial contract. While their neighbors have been discussing the political issues they have had in mind a paramount issue a more material issue culminating in the imposing upon them of a sentence for life.

Miss Mary Barkley, the daughter of Mr. and Mrs. Frank Barkley, was united in marriage yesterday by the Rev. C. S. Maddox at the home of the bride's parents to Siegel Davis. The happy young couple will spend their honeymoon in Los Angeles and return in a few days and make their home on the Davis ranch in a home which has recently been fitted up by the groom.

The bride is one of the most popular young ladies of the section south of town. She has grown to womanhood in Mesa and vicinity and is a general favorite. She is a devout worker in the Baptist church and carries with her into a home of her own a Christ character and the necessary attribute to the making of a successful helpmeet.

The groom is one of the well-known substantial young ranchers of the Mesa section. He, in his choice of a wife has proven his ability in matters where good judgment is demanded.

The wedding ceremony was witnessed by the relatives and only a few of the most intimate friends of the contracting parties. A number of out-of-town relatives from Tucson and Phoenix were present.

A shower was given the bride Tuesday in honor of her marriage and many useful presents were given. Those present were the Misses Mamie Stillwell, Ella Bloomer, Helen Mumford, Blanch Mumford, Myrtle Roe, Vona Davis, Jessie Trinkle, Pansy Ellison, Edith Smith, Nancy Smith, Viva Villman, Edsie Villman, Mary Butler, Barthena Coffman, Pearl Amos, Jessie Mackle, Lee Mackle, Chloee Hoffmann, Edith Wallace, Annie Wallace, Viola Bulock and Miss Isaac.

The wedding ceremony was followed yesterday by a sumptuous luncheon and many presents bespeaking the high esteem in which the young people were held were given.

Miss Emma Johnson and Charles Lewis were married at the home of the groom's parents, Mr. and Mrs. Ed. Lewis, of Alma precinct, Tuesday evening by Bishop Edgar Hunsaker of the Alma ward. The ceremony was pronounced surrounded by a number of the relatives and intimate friends. The contracting parties come from the oldest and most highly respected families of this section of the valley. The groom is one of the successful ranchers of the Alma section. Immediately after the ceremony congratulations and best wishes were bestowed upon the happy young people.

Mrs. W. W. Walker and F. S. Bannister were quietly married at the home of Bishop Horne of the Mesa ward Tuesday evening. Mrs. Bannister is a resident of the school section south east of Mesa, while her husband has been a resident of that section for some time. The ceremony was performed in the presence of only a few friends. The bride and groom will spend their honeymoon in Prescott, after which they will return to this place, where they will continue to make their home.

The Republican joins the many friends of the newlyweds in extending congratulations and best wishes that their lives may be clouded just enough so that they will appreciate the sunshine.
